SUMMARY

Disciplined dexterous junior developer with sysadmin experience seeking transitioning to full stack developer. Believes clean, robust code is the key of productivity.

I have passion and big appetite on learning. I self-studied MCSE cert and AWS solution associate.

In free time, I play piano and build hobby project on Raspberry Pi.

EMPLOYMENT

Ledcor Industries Inc., System Administrator, Vancouver Oct 2013 - Current

I manage variety of windows, linux servers and network for Ledcor's 180+ offices across north america.

My specialty is Exchange, Microsoft System Center products (SCCM, Orchestrator, SCOM, DPM, SCSM), Active Directory, Office 365, VMware, HAProxy, Puppet.

I created lots of automation tasks to facilitate patching, monitoring, maintenance, client self-servicing.
